

CID Company Spotlight:
Clarence Robie, B&S Electric

We recently sat down with Clarence Robie at B&S Electric Supply Company, Inc. to discuss the unique advantages of working within the Fulton Industrial Boulevard corridor, which the business has called home for the last 30 years.

Founded over 40 years ago, B&S Electric Supply Company, Inc. is a wholesale distributor of electrical distribution equipment serving the commercial and industrial construction industry across the United States. Over the course of its time working within the Fulton Industrial Boulevard corridor, Robie said he has seen major improvements in safety, transportation and a strong focus on positioning the industrial park as Atlanta's biggest area for growth and development for large corporations.

"One of the biggest advantages of being located in this area is the accessibility to any area of the city – you can't find that anywhere else," Robie said.
