

CID Company Spotlight:
Dave Seem, Miller Zell

We recently sat down to catch up with Dave Seem at Miller Zell's new facility at Fulton Industrial Boulevard. Miller Zell creates in-store shopping environments for retailers to move shoppers through their stores, therefore increasing retailers' revenues.

"Miller Zell chose to move to the FIB corridor because of its diverse labor market, favorable rental rates and proximity to the Atlanta airport," said Dave. After 50 years on Frederick Drive, they recently acquired the McMaster Carr building for their headquarters and, after six months of remodeling, they just moved into the state-of-the-art facility.

Dave, a founding member of the CID, decided to help with its creation because "local businesses needed to be connected with county government in order to get things done."
